

FOR IMMEDIATE RELEASE

VISTA Enters the Federal Health System Market in Full Swing

VISTA Technology Services, Inc., Takes Their Expertise in Data and Expands in to the Federal Health System Market in 2015

McLean, VA, February 13, 2015 – VISTA Technology Services, Inc., (VISTA) has been on the forefront of data management for over 30 years. The company designs and delivers data solutions that help manage and integrate data across an organization, making it available, accurate, complete and secure.

VISTA's Health Data Analytics group has cross functional, socio-economic led teams for Veterans Affairs, Health and Human Services, and the Defense Health Agency. These teams have proven capabilities for program integrity, fraud, and abuse across the claims processing community. VISTA's data management skills also actively and successfully serve the Health IT applications across these federal customers. "Our company knows both data management and the Federal market," stated Rod Buck, VISTA's President & CEO. "Our mantra is 'From Data to Decisions: Solutions for Enhanced Customer Decision Making.'"

About VISTA

VISTA Technology Services is a Veteran-owned, small business that specializes in Data Management, Enterprise Solutions, Real Property Planning and Professional & Administrative Services. VISTA eliminates unnecessary spending, delivering as much as a 100-to-1 return on investment in its management, information technology and real property consulting services. By comparing an organization's mission, budgets, workforce trends, VISTA creates solutions that cut costs and eliminate waste. For more than 30 years, VISTA's solutions have helped clients run better - cutting costs, eliminating waste and improving performance.
